# STUDENT CONFERENCE ON GLOBAL CHALLENGES 2008

## “RESPONSIBILITY AND EMPOWERMENT”

### ABOUT THE CONFERENCE

As future leaders and global citizens, students are confronted by enormous global challenges but also by new opportunities for innovation, creative problem solving and global cooperation. How do students see these challenges and opportunities? What are their responsibilities as global citizens, and how can they empower themselves as future leaders? This conference will explore these questions through lively discussion among students.
